Uninterruptible power supply with integrated power supply unit. For lead AGM energy storage of type MINI-BAT/24/DC/1.3 AH, QUINT-BAT/24DC 3.4 AH \dots 12 AH nominal capacity. Input: 1-phase, output: 24 V DC / 5 A. Screw connection technology

Product Description

The TRIO UPS module with integrated power supply is particularly space-saving: UPS module and power supply in one housing. Only one energy storage is required to complete the UPS system.

Energy storage with lead AGM technology buffers failures lasting up to two hours with 5 A load current.

Your advantages

- · Autonomous in the event of AC mains failure the industrial PC continues operating without interruption
- Time-saving when the supply voltage is restored, the industrial PC starts automatically
