ESD electronic needle-nose pliers, smooth grip, with opening spring, non-reflective coating and phosphate-treated, 2-component grip

Product Description

Note:
Due to the current challenges of the global procurement market, Phoenix Contact has unfortunately been forced to accept a different ESD-compliant material. In future, the tools will be supplied with plastic handles in black/turquoise. This does not affect the function or quality of the ESD pliers.

Your advantages

- Through-connected joint for permanent stability and optimum distribution of force
- Ergonomically designed two-component handles for fatigue-proof and non-slip use
- Opening spring for uniform, smooth opening
- The special conductive plastic handles ensure slow and safe removal of electrostatic energy according to standards and directives such as DIN EN 61340-5
- Made from special high-grade tool steel
- Mirror-polished and phosphate-treated metal surfaces for optimum rust protection and no glare when working

Commercial Data

Item number	1212482
Packing unit	1 pc
Minimum order quantity	1 pc
Sales Key	BH3
Product Key	BH3152
Catalog Page	Page 403 (C-3-2019)
GTIN	4046356527149
Weight per Piece (including packing)	80.2 g
Weight per Piece (excluding packing)	78 g
Customs tariff number	82032000
Country of origin	DE
